

# Density of OSM trees in Benelux, France, Italy and Germany

(aka Density of cities and OSM contribution effort. #30DayMapChallenge Day15 – OSM)

geoffrey.caruso@uni.lu – Data: OSM contributors.

Mapping process: RStats: GiscoR::gisco\_get\_grid (10km grid), OSM query and sf  
with osmdata::osmdata\_sf applied to each cell by batches of countries  
Then ClassInt for discretizing (otherwise you won't see anything really), ggplot2
